(Chorus)

Elephants, horses, fish and birds

Let's play with animal rhyming words

I'll say a word that ends the same

And you make a rhyme with an animal name.

Out barking in the fog, it's a dog.  
With long ears so funny, it's a bunny  
And sneaking through my house it's a mouse.  
And chasing a rat, there's a cat.  
Now he's napping on the mat,  
And wearing a funny hat!

Chorus

Coiled around my rake it's a snake  
Acting kinda funky is a monkey  
Giving milk now is a cow.  
And buzzing near the tree is a bee  
And now it's on my knee.  
What a sight to see. Oh me!  
Watch it flying free. Good-bye bee!

Chorus

Right there in the box is a fox  
Looking really perky, there's a turkey!  
Eating a fig? It's a pig.  
And combing his hair, there's a bear  
Now he's standing on a chair!  
And wearing long under-wear! Oh my!

Chorus

(Extra verse below that's not on the recording!)

Pecking at a carrot is a parrot  
Over in the pen is a hen  
On the racing course is a horse  
Eating from a dish, there's a fish  
Now he's making a wish.  
And swimming away with a swish  
Good-bye fish!

Chorus
