**What Did You Learn Today?**

This is a song to help children review and recall what they learned at school. The teacher points to different children during the first musical interlude so they can tell what they learned. During the second interlude, the children share what they learned with a friend.

Hey, hey, what do you say? (Clap and snap to the beat.)
What did you learn in school today?
When the teacher points your way
What will you say?
(Teacher points to children and they say what they learned.)

Hey, hey, what do you say?
We all had a special day!
Now, turn to a friend and say
What you learned today.
(Children share what they learned with friends.)
