

LISTEN - A Nature Song

(words & music by Annie Lynn)

Copyright 2005 Anniebirdd Music, LLC

VERSE 1:

One morning I ventured out for some fresh air
I felt the cool breeze blow through my hair
I took a good look at the fish in the brook
They had not to fear the man and his hook

CHORUS:

Please don't send me away
Just sit down and listen to what I must say

VERSE 2:

I've looked at our world and I love what I see
But lately some things are troubling me
If we don't take care of our earth and the sea
Our planet won't make it, it'll just cease to be

CHORUS:

Please don't send me away
Just sit down and listen to what I must say

BRIDGE:

We can make it better
We can make a difference
If we change our wasteful ways
Maybe we'll have more days

VERSE 3:

So love your earth, take care watch her grow
Make an example and others you'll show
Speak out for her rights and you'll never be wrong
Together we'll make it, our earth will be strong

CHORUS:

Please don't send me away
Just sit down and listen to what I must say
Please don't send me away
Just sit down and listen to what I must say
