

COLORS

© 2014 BatDuo Music Publishing

Yellow is my favorite, green's my favorite too
Orange is pretty cool, but I still love blue
Purple is fantastic, but now that that's been said
My favorite color in the world is definitely red

My friends all love to color, we paint each day at school
Our teacher Mrs. McKenzie is really very cool
She likes to get down on her knees, and show us how to draw.
She uses lots of colors, always more and more.

Pinks and blues, orange green, purple and tangerine
Paint a picture with the colors make a brilliant scene,
Blues and yellow reappear as the sun begins to shine
People dance with happiness, singing all the time

Paris in the springtime, is a lovely place to see
Walk along the Bois du Boulogne, with all the lovely trees
The colors are amazing when the flowers are in bloom
It's my favorite time of year as summer starts to loom

Pinks and blues, orange green, purple and tangerine
Paint a picture with the colors make a brilliant scene,
Blues and yellow reappear as the sun begins to shine
People dance with happiness, singing all the time

The sidewalk paints a picture, when the rain falls to the ground
And dappled greys are mixed with green as the light dances around
And blues and yellow reappear as the sun begins to shine
And people dance with happiness, in time
