

In the Sand

© 2014 BatDuo Music Publishing

I couldn't get to sleep last night for ages

Mom and Dad told me I must try

Today we're going away on a vacation

Headed for the Jersey shore tonight

I wanna swim all day in the ocean,

Jump the waves and fall down in the sand

Dad and me will build a giant castle

And maybe Mom can lend a helping hand

We're going on a family vacation

Spend a week hanging out by the shore

We're going on a family vacation

Mess around in the sand, then eat some more

Play in the sand and lay on the beach in the hot sun

Build a castle never seen before

Run along the boardwalk having loads of fun

Today we're headed for the Jersey Shore

We're going on a Family vacation

Load up the car with all of our gear

Eat chips and fries, we're going on vacation

This time must be the best time of the year

We're going on a family vacation

Spend a week hanging out by the shore

Eat chips and fries, we're going on vacation

Mess around in the sand, then eat some more
