Sing Your Way To Easy Learning

by Kathleen Wiley

We'll sing our way to easy learning
The facts you need to learn are in the song..
So as we sing our way to easy learning
Memory and recall remain strong...
So as we learn our Math and Science,
English, Self-Esteem and Social Studies too...
By music...
With concepts in the song...as we sing, we learn along...it's so true!!!

Oh yes, we'll sing our way to easy learning...You know why.....
Concepts set to music are like pie in the sky...
We'll learn with music and forever use it.... Memory won't lie.
Train the brain to retain its gain. Just watch us fly!!!

So yes, we'll sing our way to easy learning
Yessirree!!
Math, English, History, Science..... all agree
With concepts in the song you can't go wrong in teaching me.
I'll sing my way to easy learning!!
It's best for me!!!
