Days, Weeks, Months, Years

by Kathleen Wiley

There are 7 days in any week we know....
7 days to work and play and grow..
So listen as we say them now for you...
Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday too....

Monday is the first day and some think it is the worst day...
Because Monday means the weekend's gone and we're all back at work...!!!
But Tuesday is the second day and Wednesday is the middle day...
And Thursday means that Friday's just around the corner..

And then here comes the weekend... we have one whole day to play in..
That is Saturday, when we do chores and then play till it's dark....
Then Sunday is our rest day, some think it is our best day....
It's a day to think and ponder and to contemplate our heart...

There are 7 days in every week we hear....
4 weeks in a month, 12 months in a year....
10 years in a decade and we see.....
100 years we call a century....

So in our timeline are no fears...
It's days and weeks and months and years...
And decades and then centuries...
That make up life for you and me...

So let's improve so every day
Our consciences will have to say...
That we are stronger, braver too
Because we've learned this little tune....

So when many days and nights roll on...
And years come and go and youth is gone....
We will feel OK if we can say...
We lived our days and weeks and months and years all in a happy way..
